EXPERIENCE

AdalFi – Digital Lending Infrastructure

Lahore, Pakistan

Team Lead, Post Sales

Apr 2023 - Jul 2024

- Led post-sales motion of a lending platform across 8 banks, driving **\$20M in loan volume**.
- Owned the post-onboarding client success motion, resolving activation blockers that drove **25% improvement** in borrower retention.
- Automated client onboarding workflows using **n8n**, **HubSpot** and **Slack**, cutting **onboarding time by 40%**.

Techlogix – Campus on Cloud ERP

Boston, USA

Implementation Manager

Jul 2021 - Mar 2023

- Deployed Campus on Cloud to **26** enterprise institutions, contributing to **\$3.2M in ARR**.
- Built ETL workflows for data migration, cutting post-implementation **data issues by 55%**.
- Owned pre-sales demos for **50+** prospects, converting **22** into full enterprise contracts.

Techlogix – Campus on Cloud ERP

Boston, USA

Senior Implementation Consultant

Jun 2019 - Jun 2021

- Built Power BI dashboards to track financial KPIs, reducing **reporting time by 30%**.
- Led bi-weekly meetings with clients, identifying risks early and maintaining **95% retention**.
- **Eliminated 3 weeks** of pre-go-live work by automating data validation and client data mapping across implementations.

Techlogix – Campus on Cloud ERP

Boston, USA

Implementation Consultant

Mar 2018 - May 2019

- Rolled out **16** client-requested features and led end-user training sessions, driving platform adoption by **35%**.
- Led workshops with **30+** clients translating business processes into user stories and actionable development tasks.

PROJECTS

Donut AI - SOP-to-Workflow Builder: Built an LLM agent that turns a plain-language SOP into a deployable n8n workflow, identifying tools, researching APIs, and generating workflow JSON.

Parchay - AI-Powered Exam Prep App: Built an **LLM-powered** exam prep app that generates contextual quiz questions on demand, deployed to high school students across Pakistan.

Supply Chain Forecasting - Walmart (UMD Capstone): Applied ML to store-level delivery and truck logistics data to forecast daily inbound shipments, achieving **96% accuracy**.
